### ASSIGNMENT VALUES:

Part I: **Princeton Review Packet and Reading Organization Questions** – will be factored into your grade as WRITTEN WORK and written work represents 20% of your total term grade. Because I anticipate we will have 3 written work grades for term 1, **this one assignment will be worth 6.67% of your total term grade.**

Part 2: **Watching the film, Africans in America, taking notes, and posting to the google classroom discussion forum** –will be worth four homework grades. **Homework grades represent 15% of the total term grade and we will have approximately 30 homework assignments term 1. Thus, this one assignment will be worth as much as 2% of your total term grade.**

Part 3: **Diagnostic AP Exam on google classroom:- Your grade for this assessment will be factored in as a HOMEWORK GRADE. Homework grades represent 15% of the total term grade and we will have approximately 30 homework assignments term 1. Thus, this one assessment will be less than 1% of your overall term grade.** However, it is in your best interest to take this seriously and try your very best.
